Please Review Project Information and Estimate for Approval:

Project Description (short): 27 (30 Characters)	Resilience Improvement Plan
Project Description (long): 174 (254 Characters)	Statewide Resilience Improvement Plan and vulnerability assessment under the PROTECT Formula Program. Term project with anticipated completion date of 4/30/24; PAED 10/29/27.

Justification: 903 (1333 Characters)	The Bipartisan Infrastructure Law (BIL) added the Promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation (PROTECT) Formula Program in Section 176(c) of Title 23, United States Code (23 U.S.C.). Under this program, States are encouraged to create a Resilience Improvement Plan to help inform decisions and allow for an increased Federal cost share for each listed project that receives PROTECT funding. The Resilience Improvement Plan will contain a vulnerability assessment of the State's transportation assets. Federal approval of this plan will allow municipalities within the State to receive increased Federal funding of 87% on projects prioritized within the plan that are selected to receive competitive PROTECT funds. This project will use FHWA Program Code Y810, which is a dedicated funding source for Planning activities under the PROTECT Formula Program.
Project Manager: Eric Runowicz	
Project Engineer:	

Scope Code: #N/A (Scope Code is only for a project w/CN phase)

Requested Schedule (Project Manager):
