

Public Workshop

Are you worried about the effects of climate pollution:

On the natural environment?

On your health? Other concerns?

The Northeastern Connecticut Council of Governments (NECCOG) in collaboration with the Central Massachusetts Regional Planning Commission (CMRPC) is looking for feedback from the public to hear your ideas for reducing climate pollution in the **Ashford, Brooklyn, Canterbury, Chaplin, Eastford, Hampton, Killingly, Plainfield, Pomfret, Putnam, Scotland, Sterling, Thompson, Union, Voluntown, Windham and Woodstock** region. Please join our free public workshops to share your ideas in order to help our towns unlock match-free federal implementation dollars to reduce climate pollution in the Worcester-MA and Northeastern-CT Region.
